

Accountability System for Educator Preparation

Approved educator preparation programs (EPPs) annually provide the Texas Education Agency and State Board for Educator Certification (SBEC) information about their programs as mandated in Texas Education Code Section 21.045 and 21.0452. This data is used to calculate the indicators in the Accountability System for Educator Preparation (ASEP). For more about ASEP and the performance indicators, visit [the TAC 229.4](#) or the [Consumer Information about Educator Preparation Programs Page](#). To see where these EPPs are located throughout the state, visit our [interactive map](#).

Version 1.7: The data provided on this page are current as of [February 16, 2024](#). The visualizations are generated by the Power BI application and best practices have been made to follow WCAG 2.0 standards. Specific keyboard commands are needed to access and navigate through the data, which are not the standard keyboard commands some screen readers use. You can press **Shift + ?** to access [keyboard shortcuts](#).
